## Back to school today for 17M students

**By Christine Gonzales**  
*Philippines*

More than 17 million students in the Philippines are expected to return to school today. The Department of Education (DepEd) reported that the number of students in the country has increased by 1.5 million since the start of the school year.

The DepEd also reported that the number of schools in the country has increased by 1,000 since the start of the school year. This is due to the construction of new schools and the reopening of schools that were previously closed.

The DepEd also reported that the number of teachers in the country has increased by 10,000 since the start of the school year. This is due to the hiring of new teachers and the promotion of existing teachers.

The DepEd also reported that the number of students in private schools has increased by 1.5 million since the start of the school year. This is due to the increasing demand for private education and the increasing number of private schools in the country.

**RESEARCH FINDINGS**  
 Several studies have been conducted on the use of the Internet in the workplace. Most of these studies have been conducted in the United States, where the Internet is widely used. In a study conducted by the University of California, researchers found that the use of the Internet in the workplace is associated with increased productivity and reduced costs. Another study conducted by the University of Texas found that the use of the Internet in the workplace is associated with increased employee satisfaction and reduced turnover. These findings suggest that the use of the Internet in the workplace is a promising area for research.

# RP's Alcano stuns Yang, seizes title

FILIPINO longshot Ronnie Alcano played like a veteran all through the nail-biting final to stun the heavily favored Yang Ching-shun of Chinese Taipei, 11-6, and win the San Miguel Beer Asian 9-Ball Tour at the Robinsons Galleria Trade Hall in Ortigas.

Alcano, not given a good chance against an opponent who had ousted a pair of home-grown hopes on the way to the final, surprised everyone but himself in breaking out of a 5-5 deadlock on the way to his biggest ever international victory, worth \$10,000 (P540,000).

"I played my game and he made a few miscues," said Alcano, a Filipino. "This victory is for the people who believe in me."

Alcano raced to an early 3-0 lead before Yang, who clinched the Tour's No. 1 ranking by making the semifinal, squared the duel at 5-5.

A couple of mistakes, including a scratch off a powerful break in the 16th rack, spelled doom for the Taiwanese as the Filipino zeroed in on the title, 10-6.

Earlier, Yang played the spoiler's role to the hilt as he edged hometown hero Efran "Bata" Reyes, 9-8, in the quarterfinals and then overpowered Gandy Valle, 11-7, to nail the championship duel with Alcano.

## Chao tops trickshot; Bustamante 2nd

TWO-TIME World Pool champion Chao Fong-pang of Chinese Taipei topped the inaugural Asian Trick-shot Masters tournament at the Robinsons Galleria Trade Hall yesterday. Chao shot the cue ball into a line of three balls then made the cue ball go past the rack and make a rapid arc toward the corner pocket to convert the 9-ball for two points and a total winning score of eight points. He won \$1,000 for his feat in the event organized by ESPN Star Sports. Francisco "Diango" Bustamante ended up with six points, the same score of Yang Ching-shun of Chinese Taipei. Efran "Bata" Reyes settled for fourth place. The three earned \$300 each.

Alcano, meanwhile, turned back the favored Antonio "Nakoy" Luning, 11-7, in the semifinal.

Yang, who in beating Reyes averted an all-Filipino final, four cars, shattered a 7-7 tie to announce Valle, who had beaten him a few months ago in a rich Manila final.

Against Reyes, Yang stormed back from a 5-7 deficit to beat his Filipino rival and, in the process, clinch the overall Tour title.

The Taiwanese will have at least 200 Tour points after making it to the semifinals for the four straight time this year. Reyes will only get 150 points while fellow Filipino Gandy Valle, who made it to the semifinals, can obtain at most 170 points if he wins the Manila leg.

Valle survived 16-year-old Wu Chia-chung of Chinese Taipei, 9-8, taking advantage of four dry breaks by the teenager to steal the victory.

# Puyat scion keeps Jakarta title with last-hole birdie

MARCEL Puyat canned a 25-foot birdie putt on the last hole to pull off a dramatic victory for the Philippines in the boys' 11-12 category of the Jakarta Asean Plus Junior golf championship at the Dornah Indah Golf & Country Club in Indonesia, recently.

The 12-year-old Marcel, a sixth grader at Ateneo, clinched the title—his second straight in the class—on the par-5 18th hole, capping a relentless back-nine rally to win by one stroke over Nicolas Smits of Indonesia.

Puyat, a scion of the Puyat clan, struggled with a 79 and 77 in the first two rounds but came through with his best round of 74 on nines of 39-35 from the 6,400-yard men's white tees.

It was the second major victory

for Philippine jungolf this season after Miguel Tabuena prevailed in Thailand. The Jakarta tournament was participated in by kids from Taiwan, Korea, Thailand, Sri Lanka, Australia, India and Malaysia.

The Philippines' girls entries also figured well with Linnel de Villa, fourth in Class A play, teaming up with Paulina Sotto to bag second place behind Thailand in girls' team play.

Debbie de Villa and Mia Piccio finished third and fifth, respectively, in the girls' Class B.

Meanwhile, Dottie Ardina placed second in girls' Class C in the Asia-Pacific championships in South Korea, with Waten Supera finishing third in boys' Class C and Bino dela Paz fourth in Class D.

# Golden Tour triumph of the Filipino spirit

TEN stages, close to 1,500 kilometers with little time to prepare in these hard times, the just-concluded Tandury presents... Golden Tour 50@'05 was a triumph of the Filipino spirit more than anything else.

Warren Davadilla won his second title and the Colt 45 riders pedaled away with the team plum, but everyone in the field wound up as winners in the golden edition of the

summer spectacle on wheels.

Tandury agreed to bankroll the event on such short notice, reaffirming the company's support to sports development.

"Sports have always had a soft spot in the heart of Dt. (Lucio) Tan," said Tandury marketing manager Larry Li, caretaker of the second of two Tan teams in the Tour—the Guerrero Brandy Road Warriors.

1. The first group of authors (e.g., [1, 2]) considers the problem of the control of the motion of a mechanical system with a variable structure. The control is determined by the law of change of the structure of the system. The control is determined by the law of change of the structure of the system. The control is determined by the law of change of the structure of the system.

The figure consists of two side-by-side line graphs. Both graphs have 'Rate of reaction' on the y-axis and 'Temperature' on the x-axis. The left graph shows a bell-shaped curve that starts at a low rate at 10°C, rises to a peak at 30°C, and then falls at 40°C. The right graph shows a curve that starts at a low rate at 10°C, rises steadily to a point at 40°C, and then levels off, showing no further increase in rate with temperature.

Figure 1 consists of two panels, (a) and (b), showing the effect of 100% relative humidity (RH) on the growth of *E. coli* O157:H7. The y-axis represents the number of bacteria (log CFU) and the x-axis represents time (h). Panel (a) shows growth on TSB, and panel (b) shows growth on TSB with 0.5% NaCl. In both panels, the growth is significantly reduced at 100% RH compared to lower RH levels (10%, 20%, 30%, 40%, 50%, 60%, 70%, 80%, 90%).

# Same problems haunting RP educational system

MANILA, Philippines — The Philippine Department of Education (DepEd) is facing the same old problems that have plagued the country's educational system for decades. The system is still plagued by a lack of funding, poor infrastructure, and a shortage of qualified teachers. The DepEd is also facing a crisis of confidence among the public, who are questioning the quality of education being provided. # Teacher, classroom shortages face public schools in Cebu

**By Joanne Velasco**  
PHOTO BY JIMMY L. LACOR

CEBU CITY — In the heart of Cebu, a public school teacher named Maria Clara is struggling to manage a classroom of 40 students. She is one of many teachers in the city who are facing a shortage of classrooms and teaching materials. The Department of Education (DepEd) Cebu Office is currently working to address these issues, but the situation remains challenging.

Maria Clara is a 35-year-old teacher who has been working in the same school for 10 years. She is a single mother and has three children. She is currently teaching Grade 4. She is one of the 1,200 teachers in the city who are facing a shortage of classrooms and teaching materials. The Department of Education (DepEd) Cebu Office is currently working to address these issues, but the situation remains challenging.

# UBS report says RP 'over the hump'

## Sustainable turnaround in fiscal position seen

By the Staff

MANILA — The UBS Global Economics and Markets Research team has released a report that says the Philippines is "over the hump" of its economic downturn and is expected to see a sustainable turnaround in its fiscal position.

The report, titled "Philippines: A sustainable turnaround in fiscal position," was released on January 10, 2011. It states that the Philippines' economic growth is expected to accelerate in 2011, driven by a recovery in the services sector and a rebound in manufacturing. The report also notes that the government's fiscal position is improving, with a projected surplus in 2011 and 2012.

The report also highlights the challenges facing the Philippines, including a high level of government debt and a need to improve the business environment. It suggests that the government should continue to implement reforms to attract foreign investment and stimulate economic growth.

# 'Hot money' inflows soar to \$1.8B in January-May

By David Chen

NEW YORK (AP) — Foreign investors poured more than \$1.8 billion into U.S. stocks in the first five months of 2014, according to a report from the U.S. Treasury Department. The report, released on Monday, shows that foreign investors bought more than \$1.8 billion of U.S. stocks in the first five months of 2014, up from \$1.5 billion in the same period last year. The report also shows that foreign investors sold more than \$1.5 billion of U.S. stocks in the first five months of 2014, down from \$1.8 billion in the same period last year. The net inflow of foreign investment into U.S. stocks was \$300 million in the first five months of 2014, up from \$300 million in the same period last year.

## House body OKs insurance for pre-need firms

*Pre-need insurance units will safeguard educational plan holders, solon says*

By RICHARD L. DE VERA

MANILA, June 7 (PDI) — The House Committee on Education and Culture has approved a bill that will allow pre-need insurance units to safeguard educational plan holders. The bill, which was introduced by Rep. Raul R. dela Rosa, aims to protect the interests of pre-need insurance policyholders and to ensure that their funds are used for educational purposes.

The bill, known as the Pre-Need Insurance Unit Act, requires pre-need insurance companies to establish a separate fund for the education of their policyholders' children. This fund will be managed by a trust or a similar legal entity, ensuring that the money is preserved and used for the intended purpose. The bill also mandates that pre-need insurance companies provide regular reports to the Department of Education on the status of these funds.

De la Rosa, who is the chair of the House Committee on Education and Culture, said that the bill is a response to the growing number of pre-need insurance policies sold in the Philippines. He noted that many parents are attracted to pre-need insurance because it offers a way to save for their children's education while also providing life insurance coverage. However, he expressed concern that some pre-need insurance companies might mismanage the funds or use them for other purposes.

The bill is expected to pass the House in the near future. It will then move to the Senate for consideration. If approved by both chambers, it will be signed into law by President Gloria Macapagal Arroyo.

PPI told**

MANILA, June 7 (PDI) — The Philippine Pre-Need Insurance Association (PPIA) has urged pre-need insurance companies to live up to their promises to policyholders. The association, which represents the interests of pre-need insurance companies, said that many policyholders are dissatisfied with the way their funds are being managed and used.

The PPIA has received numerous complaints from policyholders who claim that their funds are being mismanaged or that the companies are not providing the promised benefits. In response, the association has issued a statement urging companies to be transparent and to provide regular updates to their policyholders on the status of their funds.

The statement also calls for the government to take action to protect the interests of pre-need insurance policyholders. It suggests that the government should establish a regulatory body to oversee the pre-need insurance industry and to ensure that companies are following the rules and regulations.

The PPIA has also launched a campaign to educate policyholders on their rights and to help them make informed decisions when purchasing pre-need insurance policies. The campaign includes a series of seminars and workshops that will be held in various parts of the country.

The PPIA is committed to working with the government and the public to ensure that the pre-need insurance industry is fair and transparent. It will continue to monitor the industry and to take action as needed to protect the interests of policyholders.

## S. Korea urged to wrap up risk analysis of RP goods

By David S. Johnson in Washington

WASHINGTON (AP) — U.S. Commerce Dept. officials on Tuesday urged South Korea to complete a risk analysis of Japanese goods that may be contaminated by radiation from the Fukushima nuclear power plant.

The U.S. Commerce Dept. said it was "concerned" that South Korea might not be able to complete the analysis by the deadline of May 15, which would allow U.S. companies to export goods to South Korea without restrictions.

# WARNING TO THE PUBLIC

The Philippine Amusement and Gaming Corporation (PAGCOR) warns the public to be vigilant of unsolicited individuals who are using their PAGCOR identities to solicit monetary aid. PAGCOR received reports that these individuals have been using anonymous purchase orders and checks to acquire automobiles and home appliances in their efforts to solicit thousands of thousands of pesos worth of goods. The company has publicized its headquarters only at the PAGCOR Corporate Office and only with help neither PAGCOR nor its subsidiaries.

## Timeless pieces on the Filipino spirit

Dr. Eugene Heston

Michelle's parents, who live in a picturesque house in the mountains in New Orleans, are retired. Recently, after their 30th wedding anniversary, they went to a restaurant to celebrate. Michelle's mother, who is in her 60s, studies typing two to three hours a day and practices piano.

**"Mystery!"** *Answer:* The mystery is why the author is so good at writing about the mystery of life. The author is a very good writer, and he is very good at writing about the mystery of life. He is a very good writer, and he is very good at writing about the mystery of life.

**High** The company's aggressive marketing by its website is paying off. The New England Real Estate Council has selected it as one of the top 10 real estate websites in the country.

It's the accuracy and the great response to the new game. Feedback is immediate and you can start again.

With a little more time and money invested, the "Working Man" (see "Finance," p. 46) and the "Executive" (see "Money," p. 46) are the next logical steps. But the
